If you are unable to understand the Warnings, Cautions or Instructions, contact a healthcare professional, dealer or technical personnel before attempting to install this equipment - otherwise, injury or damage may occur.
- Each individual should always consult with their physician or therapist to determine proper adjustment and usage.
- Invacare products are specifically designed and manufactured for use in conjunction with Invacare accessories. Accessories designed by other manufacturers have not been tested by Invacare and are not recommended for use with Invacare products.
- Proper height adjustments must be made to both the leg extension and the crutch handle. A dealer or therapist should aid in the proper placement for maximum balance and support.

- Wing nuts **MUST** be tight at all times.
- Ensure that rubber crutch tips are not ripped, worn or missing. Replace before using the crutches.
- **ALWAYS** observe the weight limit on the labeling of this product. Check that all labels are present and legible. Replace if necessary.
