

# STAINLESS STEEL 14 SCOPE CAPACITY CABINET, KEY LOCK

**SureDry**  
SCOPE CABINETS with

**Dri-Scope Aid®**  
**TRACKER**

Scopes not included

**SCSS8036TD-T3316D**

*Also available  
in a Powder Coat Finish*

## FEATURES

- Positive pressure fully redundant fan system
- Unit features three intake fans and two exhaust fans
- Fan run time is fully adjustable and activated each time cabinet is closed
- HEPA filter removes 99.7% of particulates, .03 Microns
- Holds five scopes with secure adjustable mounting system
- Replaceable HEPA Filter system without removal of scopes
- Medical grade electrical system
- Tempered glass double doors
- Multiple locking options available including badge entry
- Easy to clean removable drip tray
- Cabinets are delivered fully assembled
- Harloff has Industry Best 12 year limited manufacturers warranty for Sales to US and Canada

## CABINET DIMENSIONS

- 93" H x 36" W x 24" D

## COLORS

Comes in stainless steel. Also available in more than twenty color options shown at <https://www.harloff.com/finish-options/>

**Includes Dri-Scope Aid®, industry leading internal lumen drying system**

The ultimate in Endoscope drying systems is now available! SureDry Scope Cabinets feature an external HEPA filtered positive pressure drying system. Dri-Scope Aid® is the industry leading internal lumen drying system. This combination provides facilities with the assurance that they will be able to meet all current and anticipated future guidelines for external and internal drying of endoscopes, providing their patients the best possible assurance of infection prevention.

# Why is a positive pressure system important?

The unique design of the SureDry Scope Cabinet includes both top fans for intake and lower fans for exhaust. This push/pull design creates a vortex of air that flows through the cabinet ensuring maximum drying efficiency.

## Intake:

Intake airflow comes through separate HEPA filters (which remove 99.7% of particulates, .03 Microns) driven by fully redundant fans producing a positive pressure vortex from the cabinet top. This creates an even circular motion of airflow over all scopes.

## Exhaust:

The lower exhaust fans pull the circulated air out of the cabinet ensuring the flow of air is consistent from top to bottom, providing a complete drying system for the entire scope. This push/pull multiple fan system (an industry first) ensures a positive pressure system to meet all major guidelines and it ensures forced drying and equal drying levels across the full length of each and every scope.

## SureDry Cabinets: A Smart Choice

to Meet and Exceed Current AORN, SGNA and AAMI Guidelines

Scope Storage Guidelines	Forced Air Drying	HEPA Filtered Air	Hang Scopes Vertically	Scopes Must Hang Freely, No Touching or Coiling	Easy to Clean and Disinfect	Closed Door Cabinet	Positive Air Pressure	Circulated Air Environment	Connectors — Use Disposables or Reusables Stored w/Scopes	Dry Scopes Completely	Uses Channel Drying (with Dri-Scope Aid®)
<b>ANSI/AAMI ST91:2021</b>	SureDry scope cabinets, with or without Dri-Scope Aid®, meet and exceed updated guidelines
