

6745 Digital Baby Scale

30 lb x 0.1 oz / 15 kg x 0.005 kg

Detecto's model 6745 Digital Baby Scale has a lock-in weight feature which compensates for typical newborn movement. When weight stabilizes, it is "locked in" and displayed. The infant can be removed and its weight is retained. The scale features a built-in battery charger, battery or AC power, a built-in measuring tape, and a large 1.0" high transfective LCD display. Serial output allows the scale to be connected to a printer or PC.

The 6745 features serial output for connectivity with a PC or printer.

Model 6745 Digital Baby Scale

Years of experience have gone into creating the latest in accurate, dependable infant scales... Detecto's 6745. Designed to be used with the utmost ease, this scale can weigh even the most active baby. With step-by-step instructions right on the keypad, there's never any question about what to do next. The 6745 features lock-in weight ability, built-in battery charger for NiCad or NiMH batteries (15 hours charging time), a locking pin for easily removing the tray for cleaning, and sleep and auto shutoff modes to extend battery life.
