REAL PEOPLE REAL SUPPORT

NO ROBOTS.
NO RUNAROUND.
JUST REAL HELP.

The DigiDop Classic handheld Doppler delivers exceptional diagnostic performance in a professional-grade package. Made in the USA with premium materials, this standard-sized unit features Digital Sound Clarity™ technology for superior sound quality and accurate readings. Its comfortable grip and robust construction make it perfect for daily clinical use.

Like all DigiDop products, it comes with an industry-leading 5-year comprehensive warranty that covers all parts and labor with absolutely no hidden fees or diagnostic charges.

DigiDop Classic Features

- Made in the USA with high-quality materials
- Comprehensive 5-year warranty coverage
- Standard professional size for optimal handling
- Extended battery life for uninterrupted use
- Comfortable grip for extended sessions
- Operates on 3 AA alkaline batteries
