PRODUCT INFORMATION

NUCLEAR SYRINGE CARRIER BOX FOR PET 10MMPB

RNM-SYTB-10

The Phillips Safety Nuclear Syringe Carrier Box for PET 10mmPb is built for the safe handling and transportation of radioactive materials. Unlike traditional lead-based designs, this carrier is manufactured from high-density tungsten, offering effective shielding without the use of lead. With 10mm Pb equivalent protection, it provides robust radiation shielding to meet demanding safety requirements.

The carrier box features a durable stainless-steel exterior with smooth surfaces for easy cleaning and decontamination in medical or laboratory environments. Compact, reliable, and lead-free, the Phillips Safety Nuclear Syringe Carrier Box delivers superior protection while maintaining a practical, hygienic design for everyday use.
