

One of the
**Most Advanced,
One-piece Blood Pressure Cuffs**
On the Market

Nylon construction can be easily cleaned with most major brands of alcohol- or bleach-based wipes. Minimize risks of cross contamination

The perfect solution when versatility and ease of cleaning is critical

ADCUFFTM +

Our all-new line of one-piece, reusable blood pressure cuffs is designed for measurement accuracy, patient comfort, and practitioner ease.

- Simple to use and easy to clean
- Bladderless construction from TPU-coated, 70 denier nylon
- Surface-mounted ports for a uniform fit around patient limb
- Longer limb ranges for improved patient coverage
- Hang tab (on most sizes) fits conventional pocket gauges
- Hook-and-loop adhesive rated for tens of thousands of cycles
- Not made with natural rubber latex or phthalates
- Three-year warranty
