

Introducing...

Paraffin Block & Slide Storage Cabinets

Introducing an economical and practical way to organize and index microscope slides and paraffin blocks from Globe Scientific! Corrugated storage units are stackable, interlocking, and engineered for simple assembly with rugged performance.

The eight-drawer paraffin block unit holds up to 500 blocks, while the four-drawer slide storage unit accommodates up to 2,000 slides.

- Durable design for secure stacking/space saving
- Environmentally responsible, recyclable materials
- Economic alternative to lab furniture
- Ships flat for shipping and storage efficiency
- Instructions printed on unit for simple assembly

Assembled exterior dimensions:

(WxDxH) 300×295×98mm (11.8 x 11.6 x 3.8in)
