Public Access AED | AED - HeartSine

HeartSine's Standard AEDs deliver proven reliability in a compact, lightweight design ideal for workplaces, schools, and public spaces. With clear voice and visual prompts, simple one-button operation, and the innovative Pad-Pak combining battery and electrodes into a single cartridge, these units make life-saving technology easy to use and maintain.

Item: HeartSine® SAM 350P AED

Code: 350-STR-US-10

- CPR Coaching
- lightweight, easily portable
- reliable, inexpensive
- extremely user-friendly

semi-automatic

Item: HeartSine® SAM 360P AED

Code: 360-STR-US-10

- user-friendly
- does not require user to press shock button
- reduces the serious risk of responder hesitation

fully-automatic

Item: HeartSine® SAM 450P AED

Code: 450-STR-US-10

- integrated CPR Rate Advisor
- continuously reminds the rescuer to perform CPR when CPR is not being detected
- uses only the electrodes to monitor and provide visual and verbal feedback on the rate of applied CPR

semi-automatic

Public Access AED | AED - HeartSine Aviation (FAA Approved)

The HeartSine AED Aviation packages are specifically designed for the aviation industry and are FAA approved; each one includes a compliant TSO-C142 battery for commercial aircraft use. These AEDs are rugged and durable, making them suitable for any environment where TSO-C142a certification is required.

Public Access AED | AED - HeartSine Gateway

For organizations managing multiple AEDs, HeartSine Gateway models add Wi-Fi connectivity and seamless integration with the LIFELINKcentral AED Program Manager. This enables remote monitoring of device status, battery life, and Pad-Pak expiration dates—reducing maintenance hassles while ensuring every AED in your program is always rescue-ready.
