Full length glass door keeps complete interior in view for easy inventory check

Factory installed lock allows you to restrict access to staff

Antimicrobial handle to help reduce germ spread

Product Features:

Performance Series Blanket Warmer	Designed to keep blankets warm for patient care in hospitals, doctors' offices, physical therapy centers, and similar settings
Pre-set to 130°F	Standard temperature for keeping blankets warm for patient care (NOTE: parameters are locked at a 130°F maximum, but can be adjusted up to 160°F. Contact the Accucold technical support team for instructions)
Microprocessor control panel	Digital controls with a large LED readout in Celsius or Fahrenheit for intuitive temperature management
Antimicrobial silver ion-coated handle	Powder-coated handle with naturally occurring silver ions to help reduce the spread of germs
Double pane tempered glass door	Heat-safe glass door offers a full view of stored contents
Self-closing door	Door will automatically close when left ajar, preventing items from accidentally being left exposed to ambient temperatures
Stainless steel interior	Interior walls are constructed from polished 304 grade stainless steel to ensure lasting durability and easy cleaning
Adjustable stainless steel shelf	Heavy duty capacity (up to 44 lbs.) with a perforated design to help ensure proper heat distribution
Factory installed lock	Keyed lock conveniently located towards the top of the door for added security (2 keys included)
