

Graded Pinch Exerciser

The CanDo® Graded Pinch Exerciser can help increase strength, coordination, and range of motion of all upper extremities: fingers, wrists, forearms and shoulders.

- Squeeze each pinchpin to improve pinch strength and coordination
- Place pinchpin on one of the different diameter horizontal cross rods or the vertical rod
- Horizontal rod is ideal for finger, wrist and forearm ROM exercises
- Vertical rod comes in three pieces to customize height. Use for finger, wrist, forearm and shoulder ROM exercises
- Pinchpin exerciser can be used alone to perform simple pinch exercises
- Pinch resistance can be increased by either placing the exerciser on a wider diameter horizontal rod, or by switching to a pinchpin of a higher resistance
- Color-coded pinchpins vary in resistance level (force to squeeze pinchpin)

Complete set includes:

- Exercise box with 3 different diameter horizontal cross rods (3/8", 3/10" and 1/10" diameter)
- 1 three-piece vertical rod for shoulder ROM exercise
- 50 color-coded pinch exercisers (10 of each resistance)
