LUMBAR BELT

RA-BELT-S | RA-BELT-M | RA-BELT-L | RA-BELT-XL | RA-BELT-XXL | RA-BELT-XXXL | RA-BELT-CUST

The Lumbar Belt is designed to provide additional lower back support and improved comfort while wearing radiation protection garments during long procedures. When worn with the vest portion of the Vest and Skirt Apron or the Reverse Vest and Skirt Apron, the Lumbar Belt helps shift weight away from the shoulders to reduce strain and fatigue throughout the day.

Built for durability, it integrates seamlessly with compatible Phillips Safety lead aprons to enhance overall fit and wearability. Its adjustable design creates a secure, supportive fit while allowing flexibility and ease of movement during daily clinical use.
