

Clear Advantage Stitching Stand

Product Advantages

Height adjustable handles with easy-to-use squeeze locks

Four 360-degree swivel locking casters

Thin lightweight design

Radiolucent plexiglass support

Long leg and full spine imaging can be a challenge – especially in a digital environment. The **Clear Advantage Stitching Stand** is a critical tool for these specialized views. The simple and sleek design improves efficiencies and outcomes at an affordable price. The stand helps keep the patient immobile during multiple or single exposures. With four 360 degree lockable swivel casters, height adjustable handles and slim lightweight design, this immobilization device can be easily placed in position and removed for storage.
