POP-UP CLINIC ACCESSORIES

MOBILE POSITIONING PARTNER®

PRODUCT ADVANTAGES

- Ideal for any upright or table top examinations
- Size adjustable head to hold 17x17in. image receptor or smaller
- Telescoping arm
- Adjustable head
- Piston driven vertical travel
- Small footprint
- Easy to drape
- No electric
- Locking casters
- Counterbalanced

The **Mobile DR Panel Positioning Partner** provides stability, versatility and reliability when positioning DR panels for portable radiography. Perpendicularity is crucial during cross-table exams and expensive panels are heavier than their imaging receptor predecessors - the Positioning Partner allows the tech to positioning effectively while achieving optimal images for a variety of radiographs. With its small footprint and counterbalanced base, the mobile DR panel holder is easy to drape for surgery and will not tip. It can be used in surgery, imaging centers, clinics, mobile pop-up clinics and exam rooms.

POP-UP CLINIC ACCESSORIES

PROTECT-A-GRID® DR PANEL ENCASEMENT

PRODUCT ADVANTAGES
