REF 30-1039

Large Bellows Pump

Instructions for Use

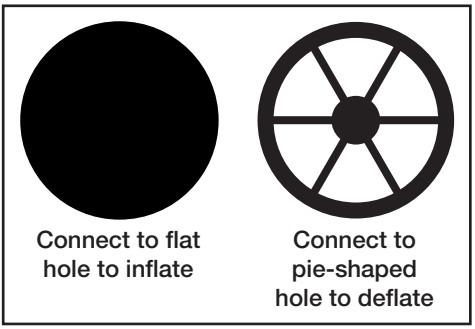

Key Features:

- Inflate and deflate inflatable products quickly and easily without relying on an electrical outlet
- Provides 1.05L of air flow per stroke
- Large surface area allows air to be pumped in and out with your foot
- Folds compactly for storage and transport
- Comes with an accordion connection hose and three nozzles to fit small, medium and large air valves

How to Use

1. Connect pump to flat hole to inflate; connect pump to pie-shaped hole to deflate
2. Choose the pump nozzle that best fits your inflatable product
3. Step on the flat surface of the pump to add or remove air
